WORK EXPERIENCE

Tata Consultancy Services Guadalajara, Jalisco

Business Intelligence Trainee September 2023 – March 2024

- Developed intelligence-sharing dashboards using Conifer Core BI Software to monitor and track key performance indicators.
- Assisted in maintaining and enhancing SQL scripts, implementing optimization techniques that significantly improved runtime efficiency and database performance.
- Performed the periodic republishing of critical datasets at regular intervals to ensure real-time accuracy and relevance of information showcased on interactive dashboards.
- Collaborated cross-functionally to design custom reports for specific business needs.
- Improved existing documentation for datasets and data cubes to facilitate better understanding among team members.

MiPawMX Remote

Web Developer March 2024 - Ongoing

- Translated Figma design mockups into responsive and interactive React.js components, ensuring design consistency and user experience fidelity.
- Integrated RESTful APIs for dynamic data retrieval, enhancing the functionality and user experience of web applications.
- Implemented advanced features such as recurrent purchase systems and payment method integration using Stripe.js.
